

Haber Technologies, Inc

Field Technician

Join our team at Haber Technologies to develop and manufacture a revolutionary agriculture technology. To support our team, we are looking for a highly motivated, dynamic, and collaborative team member. In this role, the selected candidate will report directly to the CTO and will be working with manufacturing and installation teams both internal and with external parties. Tasks may also include designing, testing, fabricating, and assembling system components. Experience working in agriculture, with grain bins, metalworking equipment, and other common shop tools is a plus. You'll have the opportunity to work with all aspects of the project life cycle, from the planning stage to product release. If you're interested in manufacturing and product development within agriculture technologies this is the team for you.

Minimum Requirements:

- Must have 1-2 years of related experience.
- Excellent verbal and written communication skills.
- Strong collaboration and people skills.
- Strong initiative and self-starter.
- Strong moral and ethical values.
- Travel may be required.
- U.S. Citizenship is required.

Preferred Skills:

- Professional experience with common shop tools, metal fabrication tools.
- Strong knowledge of grain systems and grain drying.
- Experience with sheet metal fabrication.
- Demonstrated leadership and self-learning skills.

Primary Duties:

- Working alongside team members and millwrights in the field to install systems.
- Working with in-house electrical and mechanical teams to fab components.
- Identifying more efficient ways of assembling and fabrication components.
- Visiting installation sites for system setup and monitoring.
- Keeping supervisors informed of project progress and obstacles.

Job Type: Part-time / Full-time

Compensation: \$15-20/hr

Location: Ames, IA
